

Humanitarian in Harmony Program

Humanitarian in Harmony

World Human Facility Community (WHF)

Having good quality of life, Happiness & Strong communities

Background of Rational Criteria

From the point of view of Human problems today. The world must have the utmost priority agenda. To overcome the imbalance phenomenon of the Wealth distribution, which creates instability in this world. Such as chaos, war, poverty, conflict, there was a monopoly, bribery and many other human problems.

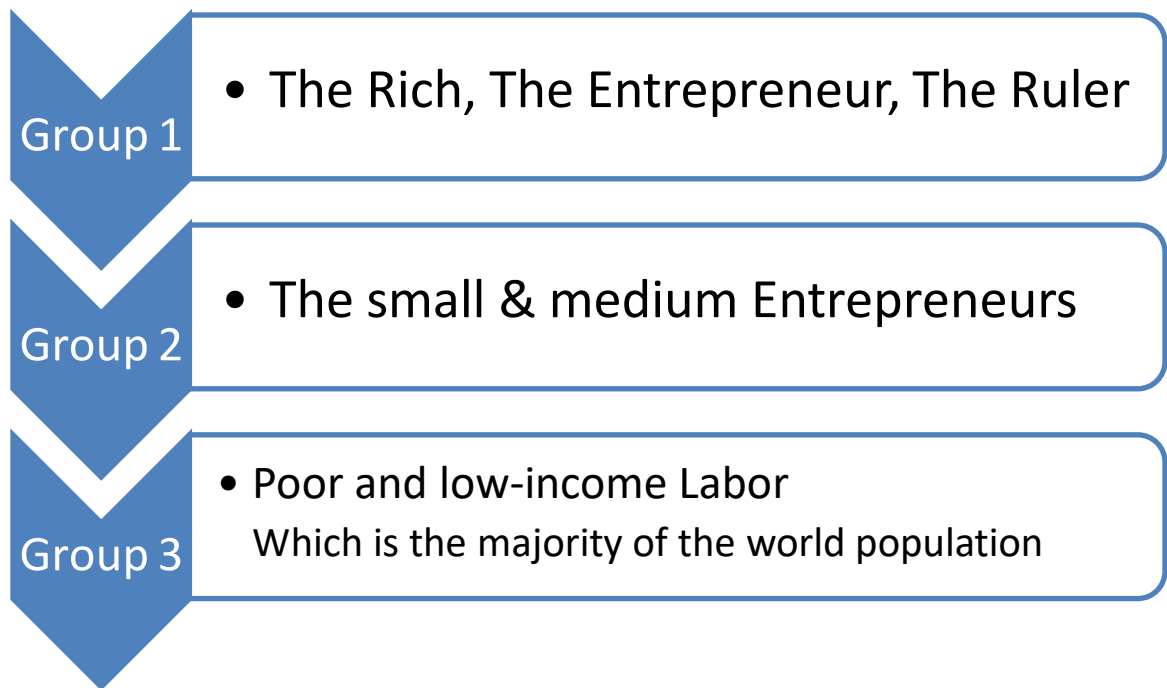

Humanitarian in Harmony Programs is the best solution to deal with these problems.

Humanitarian in Harmony Program

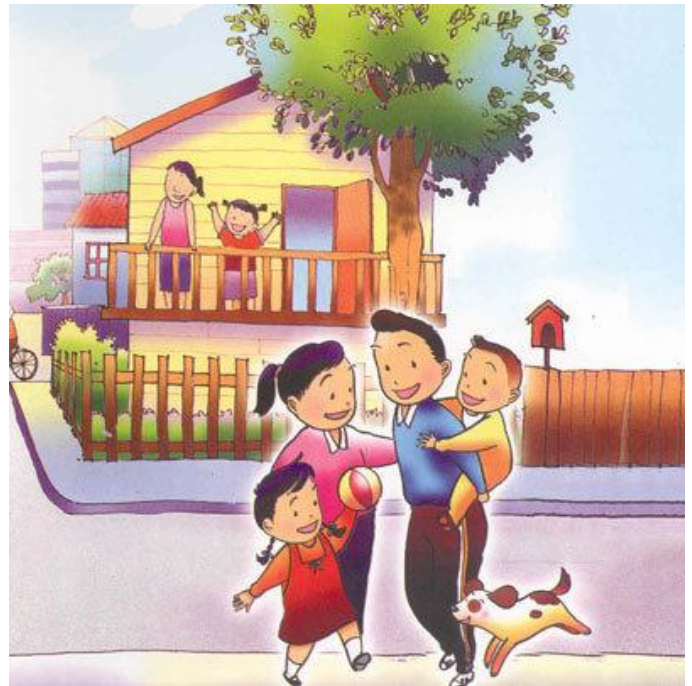

THE STRUCTURE OF THE WORLD POPULATION

The world population consists of 3 main categories;

The first category represents 20% of the world's total population. And the remaining 80% are populations in 2 and 3 categories.

Most of world activities are dominated by the first category of people and in addition they are using 80% of the world's wealth. While the other 2 categories which accounts for 80% of the world population are sharing only the remaining 20% of the wealth for their livelihood. It is imbalance of the world wealth distributions.

Humanitarian in Harmony Program

Owner Program Humanitarian in Harmony

Ms. Rusana Hahyeeyusoh Project owner of Humanitarian in Harmony

Programs and she also the Ambassador of IET-EIT WHF (World Human Facility Community) from the United Nations Organization for Thailand.

*The UN High Commissioner for Humanitarian and Beneficiary *- The Office of the United Nations High Commissioner (UNHCR), also

known as the UN Beneficiary Agency, is a United Nations agency mandated to protect and support Humanitarian and Beneficiary at the request of a government or the UN itself and assists in their voluntary efforts to making sure every reasonable beneficiary deserves what rightfully belong to them by receiving their Consignments as a reason this AWARD TO RECEIVE YOUR CONSIGNMENTS has been issued to you.

This AWARD TO RECEIVE YOUR CONSIGNMENTS is an effort for International beneficiary integration in resettlement Humanitarian and Beneficiary own Multinational Corporations Company. And It's headquarters are in Geneva, Switzerland and is a member of the United Nations Development Group created to assist Humanitarian Skill Acquisition Program and Beneficiaries in their day to day life.

New world of safety for the humanity of the world
Humanitarian in Harmony Programs

Humanitarian in Harmony Program

Basic Human Needs

Department Responsible for the Project

Udon Thani's team in charge by Mr. Pattiya Taedaengpetch

Project Benefits Realizations

Resulting in balance. The world became more stable. Reduce the inequality of human beings. There is a balance of distribution of wealth among humans. Which brings good quality of life, Improved living conditions and happier lives. This phenomenon will create security for this world. Solve and reduce many problems such as chaos, War, Poverty, Conflict, Monopoly, Bribery and many other human problems.

Humanitarian in Harmony Program

THE BASIC OBJECTIVES OF THE ENVIRONMENT HUMANS SHOULD HAVE

Basic Elements for a Good Quality of Life Make Human Life Happy

1. There is a good environment for living such as not too hot/cold, No natural disasters, pollution, rich sources, beautiful, livable etc.
2. There are with basic infrastructure system, basic facilities and utilities that are available and suitable don't need to be too luxurious. Such as a transportation system that works, there is sufficient clean water for drinking and use. There is electricity used with clean energy. Have effective communication systems, etc.
3. Have an educational system that, make equal learning, progressively and thoroughly be modern.
4. There is a public health system that is sufficiently effective and thoroughly accessible. Regardless of the problem is resolved or when the illness was healed. Or having a modern and good advanced system for preventing / planning / corrective/ performing to prevent illness. Such as get humans understand that not eating too much sugar because it causes of ill with diabetes and know to eat Chiang Da the herb to prevent diabetes, etc. It makes humans healthy and have a long life.
5. There is a strong economic system. Have a really effective poverty eradication system - ERADICATE POVERTY
 - ✓ **SELF RELIANT LIVELIHOOD**
 - ✓ **STABILITY OF INCOMES**
6. With safety conditions Whole body and property. Throughout the environment in which humans live and are involved. To live without having to be vigilant, paranoid or worry about prevention.
7. There is an intertwined anchor which strengthens the mind. Has a structural system that makes humans a virtue, with a fair human being a good person, mainly used for living. Such as religion, whether it be temples, mosques, church, treatment centers or various resources.

THE GOAL IS TO MAKE THE HUMAN LIFE AROUND THE WORLD A BETTER QUALITY OF LIFE, BETTER LIVING AND HAPPIER.
PRELIMINARY DETERMINATION OF 10,000 BRANCHES

Humanitarian in Harmony Program

Strategies and Projects

HUMANITARIAN IN HARMONY PROGRAM

We will go into building branches, opening offices and working or working together. In order to help, support, promote, create a pilot to the area or these existing departments.

The local scene has never changed since the past to the present. One of the ways in which life has changed in terms of community costs. The Humanitarian in Harmony program will solve this problem. Restoring the lost community human resource costs. They are the children born and raised in a village and community. Being taught, learned and understood the community by blood from birth. Know the origins of the story and problems, understand the problems of survival in the community from generation to next. But they have no power, no potential, no money or different factors that will make changes. The reality of what happened was. They have to decide to leave the village, the community, the person they love whether parents, siblings, close relatives and friends. From a beloved domicile, warm and cherished. For reasons of lack, the readiness of villages or communities to enable them and their families to live in quality. Make themselves and the loved ones happy. These are the reasons that the poor, low-income people travel to the capital city or developed city just to find work, find a place to study, make money. They say in villager's language that "Going for Risk of Luck" seeking a good life or go to die in the next future. It is a common true story and sad when you think about this. But when stay at home there is nothing to do. Do not know what to do as there is no good job to make a good money for support a good living in the villages. That means living without debt or making oneself and his family be a showpiece. Have a good quality of life Have a life of choice. Maybe they know and knew of being exploited but he couldn't choose. It no way for them. Most of them are farmers. Occupation, agriculture farming. Be unemployment again and again. So many people turned to intoxicated intoxication. Those who fight for life had to leave the house and village go to take a risk of luck to seek opportunities and better lives. Leave the costs and opportunities that have accumulated your whole life behind to start again at a new place. Like their children and grandchildren that graduated have a degree on hand but don't know what to do in the community. Civil servant positions are too few and it's difficult to enter but the system creates to bring in people from outside to take positions. For the example Ministry of Interior Department of Provincial Administration sends a new permanent secretary from another place. He does not know the community and there is no basic cost in the community. Only the knowledge gained from classroom studying, practice somewhere else and training come start almost from zero at this

Humanitarian in Harmony Program

community. Not being extended from the costs that the ancestors, parents, siblings, relatives collected to support the supporters in the workplace. Causing the deputy to have to encounter many obstacles in completing the work. Or many cases are not compatible with the community because of the power of the state government, the knowledge and the communities were going in different directions. Success is not to the fullest. The problem-solving development is therefore slow. But the world changed quickly. This is a cost loss. Enormous opportunity is a problem that must be resolved.

Humanitarian in Harmony Program

The Humanitarian team will solve this problem by going to work, opening branches and also work together. This branch model to act as a direct access to the community at the household and individual level.

One village can have more than one branch, depending on many factors such as size, number of members in the village, livelihood characteristics, basic village structure.

For the example in one village there may be different type of cooperative groups, housewife groups, O-TOP groups or commercial groups in various forms, etc. We create system for targeted areas which will strengthen and make these groups stronger. Real accomplishment, solve problems, develop quickly, reduce the process and time. In order to bring the opportunity to help

immediately, build sustainability, changing attitudes, pass knowledge, create unity at the grassroots level support strong foundation. Regarded as a point in making Mind Set and Training for very high quality and very effective. It's a new world development. By returning to the beginning That they are currently allowing him to stand by himself. Understood. There is a chance to choose to survive. Survive and choose to be out of domination. Being exploited sustainably by human beings from Group 1 The Rich, The Entrepreneur or The Ruler.

Humanitarian in Harmony Program

This is what we do and the area, branches, departments that we are going to work in.

1. Build & Develop basic Infrastructure Systems in the

Community. Newly created, developed or made available for infrastructure systems in every village community thoroughly. Whether coordination working with the government or created by Humanitarian In Harmony in the form of CSR, regardless. These basic structures such as having clean drinking water and using it sufficiently, have electricity to use, basic management in waste and pollution. With transportation systems that makes them access to hospitals, schools, standard type of transportation and logistics system for their products.

2. Open a branch in the area or work with the department of

Ministry of Education Whether it is a school in the Ministry of Education or outside the Ministry of Education nationwide. Both at the secondary level, university education, training institutes Adult education school. Open institution to provide education more than a system that supports only school age aged 0-25 years then send them into the labor market today. But we will create an additional education system for the elderly Supporting people after retirement in the village and community. This is type of school or university for people who have never been in school, they can come to study and join the activity in order to transfer knowledge, exchange experiences and prepare yourself before goodbye from this world. Do things that your life would like to do or learn things that interest you, but do not have the opportunity to do. As always, dreaming of playing guitar, study computer, playing karaoke, cooking etc. Or even having activities to do things that they are good at, such as opening a school for farmers etc. Some people are sages in wisdom skills. To create things according to their aptitude for income, including the elderly or their group. It is not forsaken or left to be lonely and alone. This type of school will provide diplomas and certificates in the fields that they are good at. Such as Home Economics, Agriculture. And clearly state in the

Humanitarian in Harmony Program

certificate that The Civil Service Commission or the CSC did not certify, the Ministry of Education did not certify. Unable to use this certificate to apply for work but it is the pride of the recipient Communities and villages accept. Is an activity for the elderly to have good mental health. It also helps to strengthen unity in the community. Instead of letting the elderly sad to wait for the day of their death. Change the elderly's MINDSET to be happy people at the end of their lives.

Remarks: It can open many branches, for example, there are approximately 46,259 schools nationwide. Only over 45,111 secondary schools nationwide, about 272 higher education institutions under the Ministry of Education, etc. Whether it's a public school or private school. Do not forget that the parents are the support of students who is their child and grandchildren. And these young people are holiness ready to receive what is right and is the future of the nation. That they have the correct MINDSET. In addition, access to school's access students reach the household. Reach out to household members that will be welcomed and cooperated. The student power is a great power, pure and has great influence in changing the country. And educational institutions are very stable almost all youths in the land go to school for generations to come. And when they leave the institution, they go to all areas of the country and in every class of society.

3. Open a branch in the work area of the department under the

Ministry of Public Health. Which is an important unit in every survey and will never end as long as humans exist, whether on this planet or outside. Because he is responsible for treating patients, taking care to prevent humans to have a long life. As the saying that "Without disease is a noble fortune" And this department is everywhere in every community and go everywhere whether it's a normal state of war. Whether it is a sanatorium hospital and there is a shortage in this department, there are all levels. Whether personnel, equipment and tools including the operation site. Going to open branches in the area or with public health agencies is therefore necessary and very useful. In contributing to, promoting, and bringing quality of life and happiness for human beings.

Remarks: There are 60,971 agencies and organizations involved in providing public health services in Thailand. But separated into hospitals, hospitals and offices that are within the network should open branches or work together in approximately 13,703 locations. Because the department of drugstore clinic is a private organization or private business, not a target.

Humanitarian in Harmony Program

4. Open a branch in the area or work with agencies Department of Community Development and Ministry of Social Development and Human Security).

Community Development Department under the Ministry of Interior Which is responsible for promoting the learning process. Public participation promotes and develop the economic foundation of the community for sustainable and stability. Study, analyze, research, develop community strategy as well as training and development of personnel involved in community development in order to become a sustainable strong community. Develop systems and mechanisms to promote the learning process. Knowledge management, occupation, savings, and community capital management. To strengthen the capacity of people, communities, community leaders, community organizations and community organization networks.

Ministry of Social Development and Human Security. Is an organization that performs social development duties create fairness and equality in society. Promote and develop quality and stability in life, Family and Community Institute. Such as care, promotion and development of the quality of life of the disabled, social and welfare development, women's affairs and family institutions, the elderly, children and youth affairs.

Both departments are important. That will lead to a good quality of life which will lead to the happiness of the people.

Remarks: Opening a branch or working with a department of community development Which has 954 offices under the Ministry of Interior Separated into 76 provincial Communities Development. And 878 other district community development offices. For being an agency Ministry of Social Development and Human Security There are 76 offices in every province.

5. Open a branch in the area or work with agencies at Ministry of Agriculture and Cooperatives.

Which is a government organization with offices throughout the country. The target units that the Humanitarian In Harmony will participate in are opening branches or participating in the following activities. Department of Agriculture, Department of Fisheries, Department of Livestock Development, Irrigation Department, Department of Agricultural Extension, Department of Cooperative Promotion,

Humanitarian in Harmony Program

Office of Agricultural Land Reform, National Bureau of Agricultural Commodity and Food Standards, Department of Rice, Department of Sericulture, Marketing Organization for Farmers (Or Tor Kor), Dairy Farming Promotion Organization of Thailand, Saphan Pla Organization, Rubber Authority of Thailand (SEAT), Highland Research and Development Institute, Agricultural Research Development Agency (Public Organization), an organization related to the construction of infrastructure and basic livelihoods and stable income for the people to have a better quality of life, leading to well-being.

Remarks: Opening branches or working with departments of Ministry of Agriculture and Cooperatives There are many agencies around the country. Whether the agency about Promotion and development of farmers, cooperatives, banks for agriculture (BAAC) nationwide. Learning Center Fund Related to Different Agriculture Since Thailand is based on an agricultural country. Thailand's land 27% is used for agricultural and country labor 38% are in this market segment. Is in this area and therefore has many departments involved for example, there are 8,129 cooperatives. There are many members. Such as agricultural cooperatives, settlement cooperatives, savings cooperatives, fishery cooperatives, shop cooperatives Service cooperatives, etc. In addition, the Ministry of Agriculture and Cooperatives has many agencies and branches throughout the land. Almost every village etc.

6. Open a branch in area or work with agencies of the Ministry of

Labor. Is a state agency that has many offices and related agencies and plays an important role with low income and labor groups for the example Going to work to help or support the problem of recruitment, employment, employer, employee, pay, human trafficking, the story of labor and labor protection, skill training, vocational training, the foreign workers, problems of losing local labor as the there is no good job opportunity in local communities support, creating a good income job in the local community, Bringing foreign or use the migrant workers to help reduce production costs and this able to booth up the country's economy. Which will benefit both parties. These are the sources that have a direct impact on the quality of life and well-being of all human beings. It directly affecting individuals, families, communities, and society.

Remarks: Able to open branches or work with agencies related to the Ministry of Labor with every province, every district, as well as various clubs such as housewife clubs, and women clubs.

Humanitarian in Harmony Program

7. Open a branch in the area or work with departments of the Religious Affairs and relevant organizations.

Beliefs and religions are deeply rooted in human relationships from birth to death at all levels of the community and society. There are government agencies at the local level up to the Ministry of Culture, the independent organization. Related to people, place from individual, families, villages, communities, country and international countries. It is a center of human morality regardless of where they are born, which ethnicities. And is a place of multi-dimensional power Influence on ideas, beliefs, way of life, culture, activities to drive communities and society at all level. There is an area in every village community. Whether in the form of objects, temples, churches, mosques, leaders, etc.

Remarks: There are many areas for branches opening or working with religious organizations, such as there are approximately 41,205 temples in Thailand., There are many Christian churches or mosques in almost every province. There are also foundations related to and maintained by these religious organizations. Able to promote activities as well as working on creating the foundation for the happiness of human beings, have a good heart and morality. Religious activities are something that most people in the community cooperate with. All religions teach people to be good people. These things result in a better quality of life. Faith and religion are important forces that influence people, the roots of communities and society.

8. Open branches in the area or work with minority groups, migration centers and refugee camp.

Minorities are a large population of many countries. Thailand has about 8% minority people, or about 5.5 million people, of the total population. Such as Karen, Maeo, Akha, Mien (Yao) and Thailand use to have almost 200,000 refugees both registered and dropped in the country. Most of them live in high areas along the Thai-Burma border. Most of the population in this section has a quality of life that is not very good. Especially the problem of poverty, equality, opportunities, shortage of 4 basic human needs. and the privilege of receiving many benefits is not completely thorough with many factors. Now day their children are everywhere in Thai society.

Remarks: Most of Thai immigrants are in the northern and western parts of the country, such as Tak, Mae Hong Son, Chiang Rai, Kanchanaburi, Ratchaburi, Ranong provinces etc. Especially the 9 main refugees camps as the above-mentioned province. Although UNHCR is help for long time but there is still a lot of shortage waiting for help, such as Not enough food, Education without quality in the world Is a kind of teaching and learning that can be read and written Not accepted by society. And they are not developed to have a good life in society, have

Humanitarian in Harmony Program

no opportunity, no space for them to make a living Many rights and freedoms are restricted for humans to receive. It is another area that needs urgent care and help. Opening a branch to coordinate with national agencies So they can use the wilderness as a habitat and arable land Get an opportunity to enter the labor market to support the national production process. It is an opportunity lost to both Thailand and the laborers themselves. There is no one organization that can solve the problem at present. WHF is committed to helping.

9. Open a branch to work in the area of management, housing

assistance. Housing is the first priority for demand. It is a major global problem at the national level that directly affects the quality of life and happiness of human beings. Impact to individuals, family institutions, Community and Society. It is an important cost of human life. One aspect of helping is to be able to work with the Treasury Department, Department of Forestry, etc. in using different areas. To solve the problems of healing and suffering for the suffering Both housing and work.

Remarks: Opening branches and working to help low-income people receive the opportunity to have homes, houses and arable land is possible throughout the country. And spend a huge budget but respond to well-being to the point.

"The home is the best residence for humans." *Is a place of privacy, Provide security in life and asset. It is a reflection of success, Stability, Securities. The place which is the center of the family. A reward and a completeness in life.!!!*

Humanitarian in Harmony Program

10. Open branches to work in support and care with independent organizations, foundations and associations.

Organizations of these agencies are nationwide. These organizations have access to communities. Experience the problem but they have a lot of limitations in their potential, availability, both coordination, funding, accessing and accepting government acceptance such as housewife's association and women groups.

Remarks: Opening branches and working to help can be done in many areas, for example, there are more than 25,863 foundations and associations in Thailand nationwide.

11. Open a branch to work in supervision with the Ministry of Tourism and Sports.

Sport is important for improving the quality of life of people. Both in terms of health, sanitation and the mind, which is a good foundation and stability of humans and societies around the world. We open branches for exercise, recreation, promotion, immunity, unity which are tools to enhance the quality of life of the country's population.

“Sport! Sport! is a Magic Medicine.”

Tourism is the creation of mental happiness, create experience, create economic and social stability. Play a role in creating prosperity, development, conservation and investment. It is a form of effective direct education and affects all levels of society.

Remarks: Opening a branch for working with tourism and sport agencies. It's easy and abundant throughout the country. Both public and private areas. Such as sports clubs, associations that bring happiness both physically and mentally, resulting in a good quality of life.

Humanitarian in Harmony Program

12. Open a branch to work or work with Ministry of Finance for related work.

Ministry of Finance Regarded as a pillar of economic driving and sustainable development. Budget areas, taxes, duties, land related business, state property, various banks involved in various dimensions such as Bank of Agriculture and Cooperatives Commercial banks and investment funds, etc.

Remarks: Opening a branch to work with this department is depends on the negotiation, coordination, suitability and possibility. It can be done nationwide, including opening of a bank in other provinces for response to understand the real needs. Because now day, financial institutions Especially banks are headquartered in the capital only. All approvals, such as credit decisions, are based in the capital. The authority does not know or understand the real needs of the upcountry community.

13. Open a branch to work with the Ministry of Natural Resources and Environment.

Ministry of Natural Resources and Environment is important and has a great role to good quality of life and happiness of mankind. In fact, people were born, grew up, and died from this world by the perfect nature of their surroundings in different aspect. Which most people do not have to buy or make any investment in general, so most people do not feel and give importance to nature and environment. In addition, the majority of the world's population. It is a group of poor people with low incomes which accounts for 80% of the total population. Most of them, just helping themselves, struggling to survive, is still a difficult matter. Therefore, the story of environmental stewardship is something that they don't even think about. The relevant departments have a direct responsibility and educational institutions must not forget to instill the subconscious mind for humans to understand the world, understand the value and importance of nature and the environment. Living together. Interaction between nature and humans Such as the following points. PROTECTION, REDUCTING, RECYCLING, SAFE & RETURN, DISCOVERING ALTERNATIVE, RENEW, REHABILITATE RESTORE, RECONDITION, RESPONSIBLE, MAINTAINING DIVERSITY AND USING SUSTAINABLE FOR NATURAL RESOURCES AND ENVIRONMENT.

Remarks: Opening a branch to work with this department can be done at all parts of this department. Department of Environmental Quality Promotion, Pollution Control

Humanitarian in Harmony Program

Department, Department of Mineral Resources, Department of National Parks, Wildlife and Plant Conservation, Department of Marine and Coastal Resources, Department of Groundwater Resources, Department of Water Resources, Office of Natural Resources and Environmental Policy and Planning, Forest Industry Organization, Zoo Organization, Botanical Garden Organization, Greenhouse Gas Management Organization, Office of Biological Economic Development, Office of Community Forest Management, Bureau of Forest Preservation and Fire Control, Bureau of Forest Research and Development, Bureau of Plantation Promotion, etc. For example, there are 155 national parks around the country. There are many of these agencies that directly reach the goal.

14. Open a branch to work in the Public Relations Department.

Responsible for enhancing understanding, providing information, and convincing duty in all missions to achieve the goal Which has a very important role Such as information centers Regional or community level for example a radio center.

Remarks: Able to open a branch to work with public relations agencies which has every community. Consider as appropriate. Some areas may be a form of additional work for an existing department or opening a new office, doing specific duties is also possible.

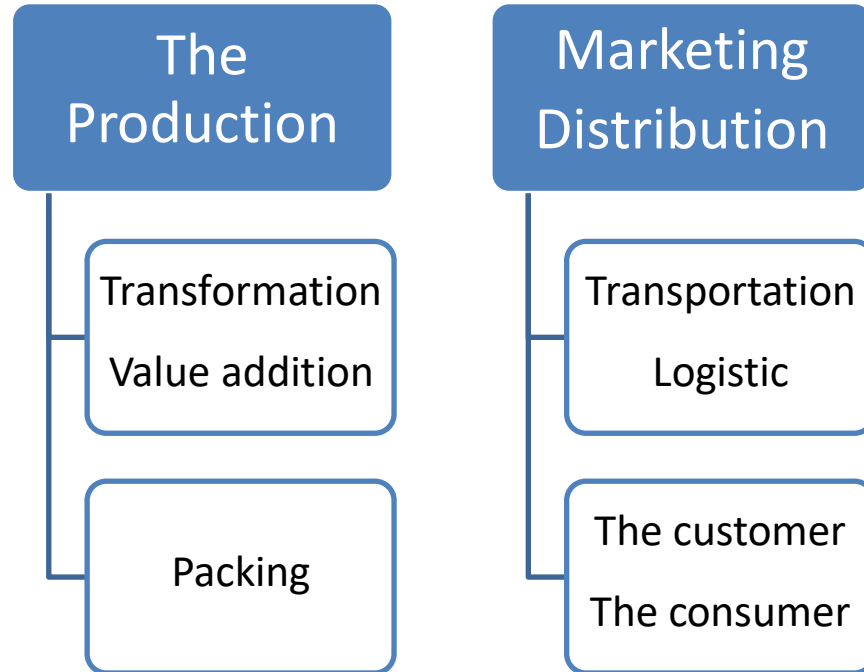

15. Open a branch to work in the area of care, economic support.

It is an important matter, has many roles, influences and impacts directly on humans, environment, quality of life and well-being of people of all levels.

Humanitarian in Harmony Program

ECONOMY IS A MATTER THAT INVOLVES MANY MOVEMENTS
SAID THE OVERVIEW AS FOLLOWS

Each movement is all important.

The important thing to look at the whole system.

Marketing and Distribution

Before production, must know the market well otherwise risk of Failure-Loss-Debt!!!

It must understand and know the market on the basis of following details.

| | |
|---|--|
| ✓ Must know what the market needs? | ✓ Sell to whom? |
| ✓ What products must be produced? | ✓ Where to sell? |
| ✓ What type of production, standard quality, how? | ✓ How to sell? |
| ✓ How much is produced? | ✓ When is the sale for the best price? |

This is a sample of basic FAQ before make decision to invest?

Humanitarian in Harmony Program

Most problems at present World population in group 3 or poor people with low incomes. Without knowledge, not enough information and understanding. There is no power to set these things at all. Did not determine the selling price. He therefore became possessed. Exploited from group 1 The Rich, The Entrepreneur, The Ruler are the one which seizes benefits, wealth and prosperity. Then keeps it solely, not to share. Therefore, understanding and being cognizant of marketing is absolutely necessary.

For marketing **Humanitarian** will be part of the buyers, consumers, sponsors, whether creating, developing **Brand Own** products Create market development in the form of **One World One Market** is a drive to New trading style by changes in the market that divides manufacturers, producers and consumers as is currently the majority. To be a market in every part participate in the production process Create innovation and consumption process. Adjust concepts, increase market share with each other, supporting, sharing, creating an **Open Collaborative Platform**, provide coordination to assist in the release of goods to the group **Network** of countries around the world network And find a big market or large buyer groups for product drainage, product, members in the project. Including helping to plan marketing in various forms such as creating **Platform online, E-commerce, Social Media Marketing**. Providing knowledge, promoting and helping businesses **Online** For products or sales methods advertising in various forms such as **Facebook, Lazada, Alibaba** and various channels, both public and private. Whether the Ministry of Commerce, Department of Internal and Foreign Trade or related departments. With department and expert personnel systematically supervising.

Humanitarian in Harmony Program

Production process

Production process is important as it must choose to produce products with good market value with analysis and utilizing data for maximum benefit. Such as having to know what kind of durian will be produced? Which season is out? Where it can sale for the best price? But most agriculture for example it is the occupation in which most people work in this region stick to the principles of ancestors for however they do. For example, the Cambodian farmers for 1,000 years, their lifestyles almost didn't change. However, in the past, it was still poor. The ancestors used to grow rice in any type of rice. The ancestors were not wrong. But the world has changed a lot. Used to plant rice, cassava, corn, also planted as before and there is a market problem. The price is low. Where to sale for a good price? Have a loss. Need to change to grow expensive crops and market needs such as grapes, export flowers, cherries, date palms, bamboos or good economic trees such as teak, *Dalbergia cochinchinensis*, Makha wood (Rose Wood) etc.

The production of products must know the standard of the products that are going to be sold to the target markets. To succeed with the introduction of technology, modern equipment, academic knowledge came to help in the production process. Providing high quality products Meets the needs of the market for the buyer and the consumer and reduce the production cost. Produce more quickly, get more products, reduce various losses etc. Also promoting Help to change themselves from the manufacturer or producers to the seller, selector, customizer. Not on the side of the dominant, disadvantaged in many dimensions which affects the quality of life and happiness.

Value-added Processing

Processing and adding value are an important step to make a huge difference on the productivity, profit distribution, income and manufacturer success. Which is a big problem for basic manufacturers due to Lack of knowledge, understanding, help and support. So that manufacturers have the highest value products to market and consumers. In order to generate high incomes following. Such as constructing advanced processing plants to support the processing of agricultural products. Bring the Biotech technology industry to help.

Humanitarian in Harmony Program

To change from being a buyer of a product to becoming a seller and exporter. Which generates a higher income and the product's price itself. Including the use of modern technology to help in the processing to increase value, reduce costs. As well as being able to process large quantities in a short time.

Packaging process

To have access to modern packaging processes that are attractive to the market acceptance. With modern technology to help in the packaging process which causes cost reduction as well as allowing for efficient packaging, protecting value, protecting products Keep for a long time and can pack a large quantity in a short time etc.

Transportation and Logistic process

Providing access to the transportation process for goods and products that are efficient, fast, accurate, low cost, in large quantities Have support measures Protect against loss and damages of products etc. To be able to compete at an international level.

Humanitarian in Harmony Program

Sufficiency Housing Project for the Poor and the Low Income

Sufficiency Economy Philosophy

It is another matter that is related to the economy. And well-being Directly affect the quality of life which brings happiness. Which is the philosophy that His Majesty King Bhumibol Adulyadej with royal decrees for all Thai nationals since the year 1974 onwards. In order for the people to be able to live stable and still stand. It is a guideline for sustainable development, build a foundation for sufficiency. Use knowledge and virtue with wisdom and perseverance as the foundation. In life of the majority of the people of the country. Firm and can be done then gradually strengthen and develop accordingly.

It is another matter that is related to the economy. And well-being Directly affect the

The sufficiency economy approach is also an indicator of quality of life at all levels. From families, communities, societies, countries.

Humanitarian in Harmony Program

Save & Protection the World
Sustainable Growth
Shared Stability
Lasting Peace

Homes and land are the cost of life, which affects the lives of true people.

Humanitarian in Harmony Program

Source and beginning of the Sufficiency Economy Philosophy

Effects of national development to modernization causing a great change in Thai society in every area. Can be seen from the main structure Whether it's a lifestyle, economy, society, environment, culture, well-being, changes around us, the communities in which we are involved and perceived. Which is complicate and is the factor that connects each other without boundaries.

One thing that appears clearly is the positive development results. Mostly, it affects or benefits people who are wealthy, rich, powerful or controller. Which is a small group of society being giant more beneficiary. It can see from these examples. Economic growth, Material prosperity, Modern technology communication system, Getting a good education and various utilities etc. Rural people or disadvantaged people in society receive less benefits. Or received as a 2nd class person in society. At the same time, there are many clear negative effects which have a large effect such as the expansion of government into the countryside resulting in the rural weakness in many ways. Must rely on the market and middlemen, both production processes, distribution processes, transportation, capital goods orders, adding value, access to various benefits, the decline of natural resources, Kinship relations structure, traditional integration, resource management. The good things that had previously been broken down. Kindness, generosity, cooperation, unity. Knowledge that is used to solve problems and accumulate as costs Inherited from generation to generation, it was forgotten and began to disappear. There is more disparity in society. It is the pattern of today's world that is continuing and passed on in this direction. There is no change for our generations and children. This is something that we can work together to help change our world. According to the philosophy of sufficiency economy.

The important thing is sufficiency in life. Which is the basis for Thai people to be self-reliant. And live life with dignity under the power and independence to determine their own destiny. The ability to control and manage themselves so they can respond to various needs, including the ability to manage problems themselves. Which is the basic potential that Thai people and Thai society used to have in the past. It overlooked, forgotten and began to disappear from society.

Humanitarian in Harmony Program

Royal Initiatives on Sufficiency Economy

“...National development needs to be done in a hierarchy. Must build a foundation which is sufficiency, having enough and sufficient for the people. Mostly first Using methods Devices that are economical, accurate according to academic principles. When having sufficient basic Stability and able to act now practicable. Then gradually build, gradually enhance prosperity and higher level of economic status in the following order....”

Is a concept that is based on the Thai way of life. It is a development approach based on the middle path. And carelessness Taking into account moderation, reasoning. Self-immunity as well as using knowledge and virtue Is the basis for living. With "wisdom and perseverance" Which will lead to "happiness" in living a true life.

Establish basic economic stability first, that is causing most rural people to have enough. Is a development approach that focuses on income distribution, in order to build the foundation and overall economic stability of the country. Before focusing on higher level of development.

If each person has enough to eat and have enough. Especially if the whole country has enough is good. And Thailand at that time began to be don't have enough. Some people have many, some don't ... This is not good.

Royal initiatives in sufficiency living

His Majesty the King Understand the state of Thai society

1. Seize the economy, Cut costs in all areas, Relentlessness in life.
2. Uphold the profession with accuracy and honest
3. Abstaining from competing interests and competing in trade Violent fighting.
4. Not stopping to find a way Liberate life from misery. By working for knowledge to have more income to the point of sufficiency. Is an important goal.
5. Act in a good way, relentlessly evil, behave according to religious principles.

Humanitarian in Harmony Program

Basic Housing Theory To divide the area into 4 parts.

Area Section 1. Approximately 30%, dig a reservoir. To store rainwater during the rainy season and used to supplement the crop in the dry season. Including raising animals and various aquatic plants.

Area Section 2. Approximately 30%, grow rice during the rainy season. To use as a daily food for the family sufficient throughout the year to cut costs and be self-reliant.

Area Section 3. Approximately 30% to plant trees, fruit trees, perennial plants, vegetables, field crops, herbs, etc. for use as a daily food. If consumed, it will be sold.

Area Section 4. Approximately 10% are residences, animals, roads and other houses.

After completing this step. Should advance to the next level. Contact To procure funds, sources of funds such as banks, companies, private shops, organizations to help invest and improve the quality of life

Sufficiency Economy Guidelines

His Highness intended it to be a guide for existence and conduct people at all levels from families, communities, governments, nation.

Humanitarian in Harmony Program

Sufficiency means moderation, reason, and need. Have a good enough immune system to the effects of internal and external changes. Relying on knowledge and prudence. In applying academic knowledge to plan, implement with have morality and honesty. Live a life of patience, diligence, wisdom, prudence. In order to be balanced, ready to support rapid changes in a wide range of material, society, environment and culture from the outside world.

Self – Sufficiency Can live by oneself without trouble. Do not rely on others. Adhere to the development trend that has people or people as the center which leads to **Sustainable Development**.

Sufficiency Home

บ้านพอเพียง

For low income people to building a stable foundation for the family

Land is the only property that is stable, has value, and has a growth rate all the time. The increase

in land prices is infinite. Therefore, any property with a high proportion of land, there will be a rate of increase in value and higher returns to the owners of the possessions in that property. Without any additional investment in that land. Data statistics show an alarming truth. And worrisome especially for Thais, 3 out of 4 Thai people or 50 million Thai people do not have ownership in arable land and do not have their own land to live.

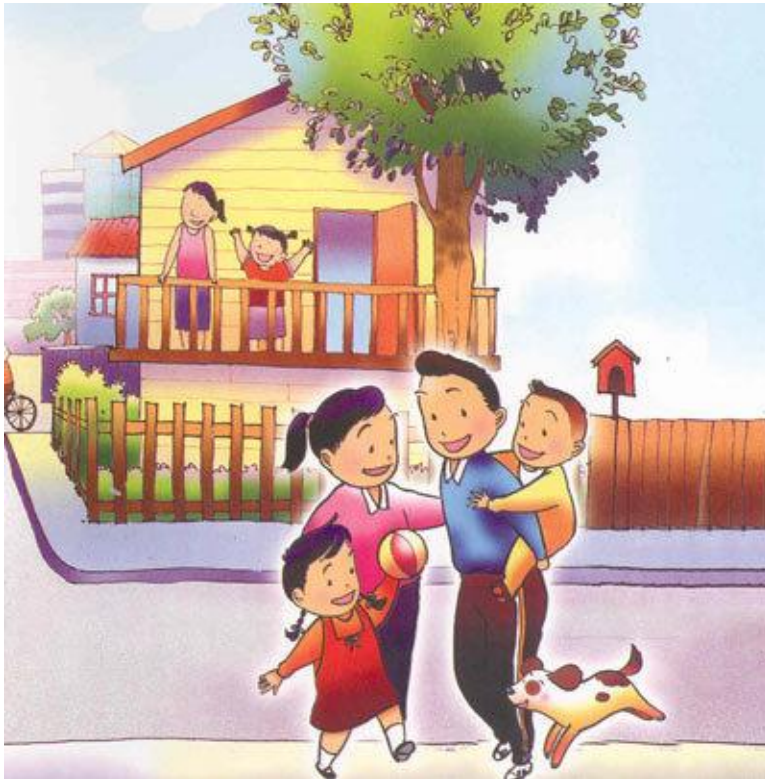

Regardless of where you are born, what kind of race or ethnicity you are born on, will be born on wealth, riches in money, heaps of gold, or how born with extreme poverty or how difficult it is. Things that are true for everyone as a whole Can't deny that

"The Home is the Best Residence for Humans."

Humanitarian in Harmony Program

Home is a place of privacy provide security in life and property. It is a reflection of Success, Stability, Securities and Place which is the center of the family. Is truly Rewarding and Integrity in life.!!!

We live in the 21st century or since 2001. Which is the time that the house is not only a residential place, it is a true "Best Investment".

Having a private home. It is a place to live and do activities under the atmosphere that you are pleasing, pleasant in the way you dream. Engaging with your own home design for you and your family as well as the people who love, care, and desire to live together. It is a welcome thing and a measure of happiness, stability and the quality of life for the members in their home.

Humanitarian in Harmony is passionate desire that wants Thai people have a house to live. Arable land Which is the property of one's own. Especially those who have never had their own home Live by rely on the lives of others, rented house or those who dream of wanting a 2nd home, for whatever reason Which results in a better quality of life. From the experience of traveling to large cities in many regions of the world to study the lives, livelihoods, people's lifestyles. For the example these countries Japan, Hong Kong, Vietnam, Singapore, America, Central America, South America, Australia, South Pacific countries and many cities in different part of the world. Found that those people Have to spend millions of baht in order to have a condominium for living in a cramped area. For being together with the whole family and without even an area of approximately one square meter for lawns or plant trees, the flowers are their own. Thai society is also changing in the same direction as those big cities. Which is something that is worrying and scary for Thai people. Especially the children of our generation born to have no ownership in the residence and without own land. Because our generation didn't create it for. Not passed on as an inheritance to our beloved children.

Humanitarian in Harmony Program

House and land for living, for investment as an inheritance for children. Is a reward for life or gifts for important people in your life. Regardless of what reason your home needs are?

- ✓ ☐ Would like to have his own home
- ✓ ☐ Would like to separate the family from the original address
- ✓ ☐ Want to expand to have more space for the growth of the family
- ✓ ☐ Moved to near the workplace and near the children's school Or for any activities
- ✓ ☐ For investment
- ✓ ☐ Other _____

Of course, it will make you and your family members have a better life. Have a better quality of life and happiness. It is inspiring and has a strong will. We want Bring these things offered to create opportunities for Thais to have ownership in residential houses and own land. Make the dreams of many Thai brothers and sisters come true. Have the opportunity to deliver a beloved home. It is valuable to you to be a legacy for your loved ones or future generations. Before the house and land prices will be something that is too expensive not related to income that grows too slowly. Until the purchase of a house, residence, and own land is intangible for most Thai people who born, grow and live on the Thai land, which is something that is loved and cherished by all Thai people.

Remarks: Sample pictures of beautiful and charming living houses Researched from general websites, both Thai and foreign. For those who do not have a chance to travel abroad, not familiar with internet usage or do not have expertise in home design. Use as a way to visualize your own home. And thank you to the owner of all the images in this opportunity. Best regards.

Humanitarian in Harmony Program

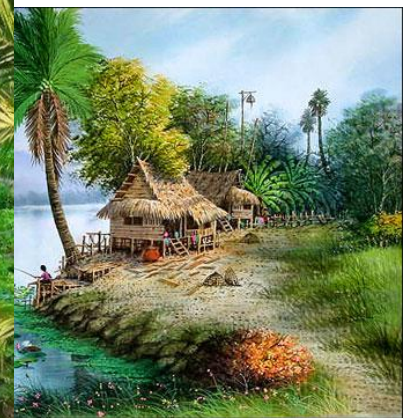

Reasons to talk about houses in the Sufficiency Economy, Quality of life and Happiness of the people. Because it relates to matters relating to living, livelihood, the main cost of living, for most people in the world. And this is a big problem for the world population in all areas, especially the poor and low-income people. Because the house is the main cost of living and life.

Humanitarian in Harmony Program

Sufficiency economy is not about retro, backwardness, walking back to the stone age. But is a solution on the basis of accepting the truth, planning for stability that can bring good quality of life, Sustainable happiness for mankind, Environmentally friendly, Stabilize the world.

Humanitarian in Harmony Program

If you are not ashamed to accept the reality. Even if they are poor or have a low income but they are people. There is a need to have a beautiful house to live in, safe. In a good environment. It is the right thing that they should receive. Whether to meet the needs or as the reward of life.

Humanitarian in Harmony Program

A home is a dwelling place that engages with family structure, individual character, and cost directly. Therefore, most people's life design planning occurs and is directly influenced and influenced by the home. Which has a direct variable relationship.

Humanitarian in Harmony Program

Humanitarian in Harmony Program

Humanitarian in Harmony Program is let you choose to participate in the decision for your own home that you like. Your dream home, the house that you want to live with and you are happy with.

Residential homes that we have designed plans to support living, livelihood, appropriate, balanced, consistent, meeting the needs. Inevitably makes us happy, as well as reducing the cost of living or save a lot of costs. For example, choosing a home near the workplace can affect travel costs. Use renewable energy save energy costs and electricity. Allocate water source, water management. Or raising animals and grow vegetables it resulting in food that is sure to be clean and safe which helps to reduce expenses for food etc. It can be seen that the concept of sufficiency is important and has a huge effect on the household economy.

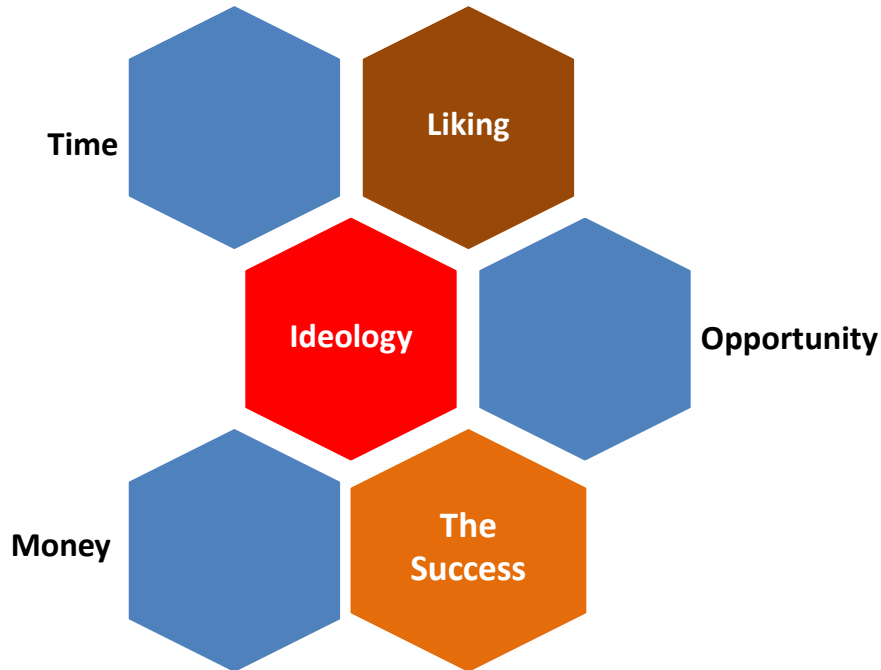

House or residence Is a fundamental issue of the economy at the household and individual level, affecting the community. Which all have a very direct impact on the cost of life. Whether it is income, expenses, debt, saving. Which affects well-being Good quality of life and the happiness of mankind.

Humanitarian in Harmony – Help you with your accommodation!

Humanitarian in Harmony Program

Explore what we have as cost of life. What is can used to save life costs?

Such as cleverness, aptitude, liking, experience, knowledge, diligence, patience, discipline, prudence is a good planner. For success, having a good life, these are important issues that are delicate. Related to lifestyle as well as affecting the success and failure of life, quality of life, happiness and the path of life cannot be reversed.

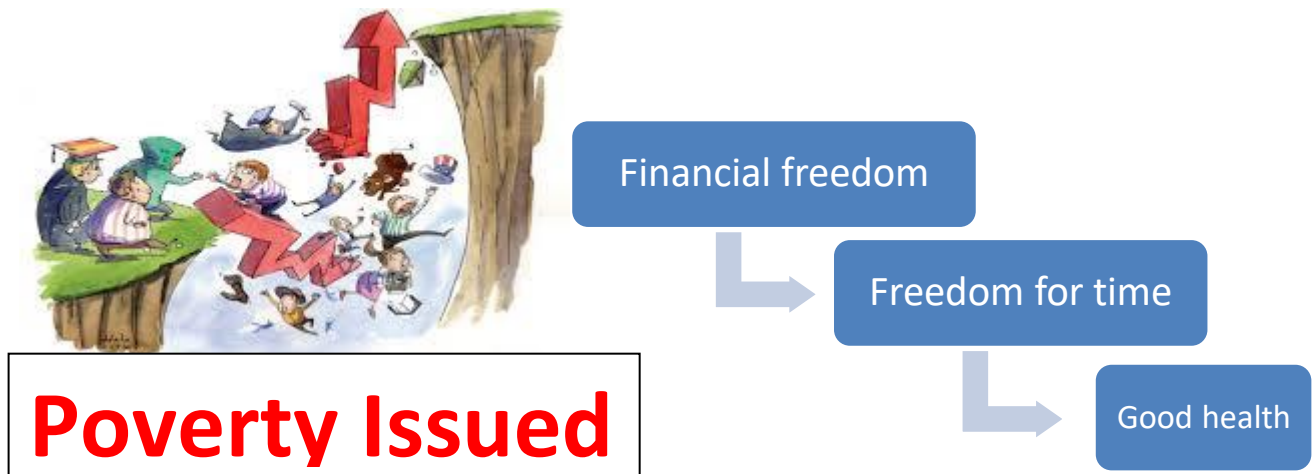

- A. Passion bring failure to many people. Choose only what you like.
- B. Ideology Is a different story from success.
- C. Success story. Does not depend on ideology and preference.

Economic matters, Time, Opportunity, Money Are Equal same Value.

Humanitarian in Harmony Program

Liking, Ideology and Success. These 3 things have different results.
Which affects the following 3 things;

Basic grassroots level, individuals, families, villages, communities. Solving that problem Must find the 3 points below. What is the root of the problem? And correct the point It is the key to truly solving the problems of households, villages and communities and to solve them sustainably.

Funding - Because he doesn't have the funds to pursue a career?

Career - Because there is no career for him to do Or he can't do it?

Income - Is it because he has no income?

Poor and low-income labor. Which is the most people in the world.
There is no debt is a good fortune.

**Poverty is a big problem for most people in the world. And is important to indicate
unhappy life and poor quality of life.**

Humanitarian in Harmony Program

Solving poverty have to look at the whole system. No skills, no knowledge Providing education, training, and skills. No occupation, no job. Then build a career, create jobs for the community, people, family. Will have income, when having appropriate income. Will be in a good environment and there is a strong economic system.

- ✓ Allowing humans to make self - **SUFFICIENCY SELF RELIANT LIVELIHOOD**
- ✓ There is a system that generates stable income for humans - **STABILITY OF INCOMES**

ความยากจนจะหมดไป **ERADICATE POVENTY**

Humanitarian in Harmony Program

Operating and Operating Procedures

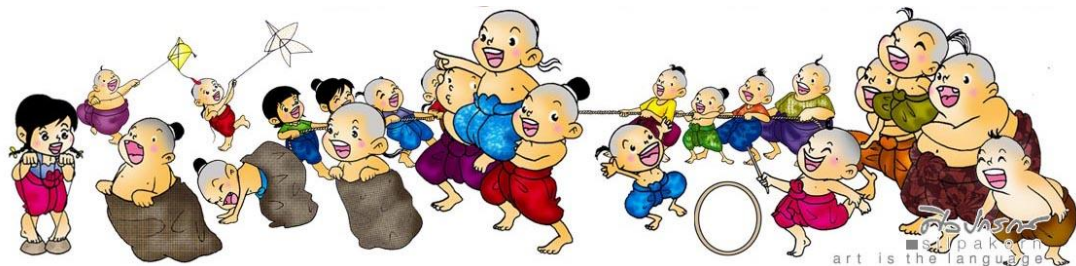

Principles and reasons, objectives, goals, strategies, what the **Humanitarian in Harmony** set the framework and guidelines for working. Summary of the overview in a short, concise, transparent, clear, direct communication. Easy to understand Resulting in maximum efficiency in operations Focusing on achieving goals the operation has the following steps:

- 1) Define the project, policy, scope, plan the project, write the project to the project owner **World Human Facility Community (WHF)** by Ms. Rusana Hahyeeyusoh to consider, review, summarize, approve the project and start the operation **Humanitarian in Harmony** for the expansion of 10,000 branches worldwide.
- 2) Team meeting, work planning, project review, data study, target area selection. Select, define branches based on objectives. The basic goals of the environment that humans should have. Basic elements for a good quality of life make human life happy. By implementing the strategies and projects that the human organization has laid down 15 target agency groups. From related departments or areas and is ready for work and then branch out follow the steps as follows.
 -  Perform master branch.
 -  Perform branches Urgent project group to solve problems and take immediate action.
 -  Performing workgroup branches according to the strategy covering an area of 10,000 branches.

The process for considering the opening of branches nationwide divided into regions, provinces. In order to lay a model branch to cover the whole country, every region, area, community, village, related agencies. Including information on problems, needs, and goals of the community as a whole. Basic branch planning operations. Before entering the community area for the final decision (Prepare for fieldtrip survey) at this stage to create a Road Map branches.

Humanitarian in Harmony Program

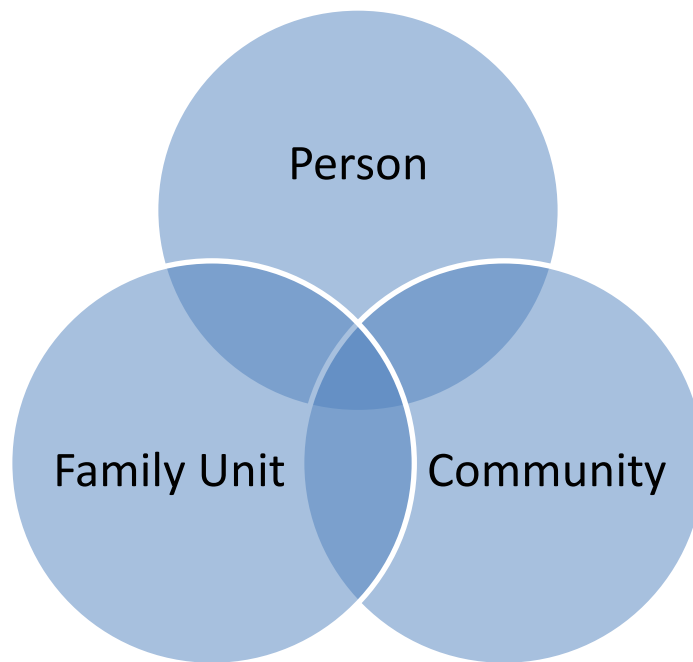

- 3) The next step is to bring the project and the Road Map to the target area branch. Coordinate with major government agencies to inform, help requesting cooperation, requesting permission to enter the operation area to opening a branch. Such as Ministry of Foreign Affairs, Ministry of Interior, Ministry of Social Development and Human Security, Ministry of Agriculture and Cooperatives, Ministry of Labor, Ministry of Public Health, Department of Religious Affairs, Ministry of Tourism and Sports, Ministry of Finance, Ministry of Natural Resources and Environment, Department of Public Relations, Ministry of Economy, Trade and Industry and other government agencies Related including provinces and districts to call for relevant work meetings, whether it is security agencies, bailiffs, subdistrict administrative organizations, sub-district heads, village headmen, or other relevant agencies. In order to be aware of operations in the area or opening a branch office of the organization of the team Humanitarian in Harmony. To government agencies that have a direct duty to be informed of our organization, including the origin, objectives, goals, activities, areas and various things that we do. In general, who we are (a business card, introducing an organization), what is the purpose, what to do, where and with whom? As the host, he should be informed. In accordance with rules, customs and etiquette for comfort. Which causes cooperation, alertness, working together, coordinating, helping, relying. Is not hostile to any organization or institution, we are an organization under the Kingdom, with institutions of nation, religion, and monarchy as the main pillar, with citizens as a goal, for the well-being, the quality of life and happiness of the people, create a good environment. We are friendly to each other, strengthening reconciliation, creating good understanding with one another. These things are convenient, flexible and efficient. Is an element that is a bridge leading to success, achieve project goals. This will be done in writing, photography or other evidence. Assembled as evidence.

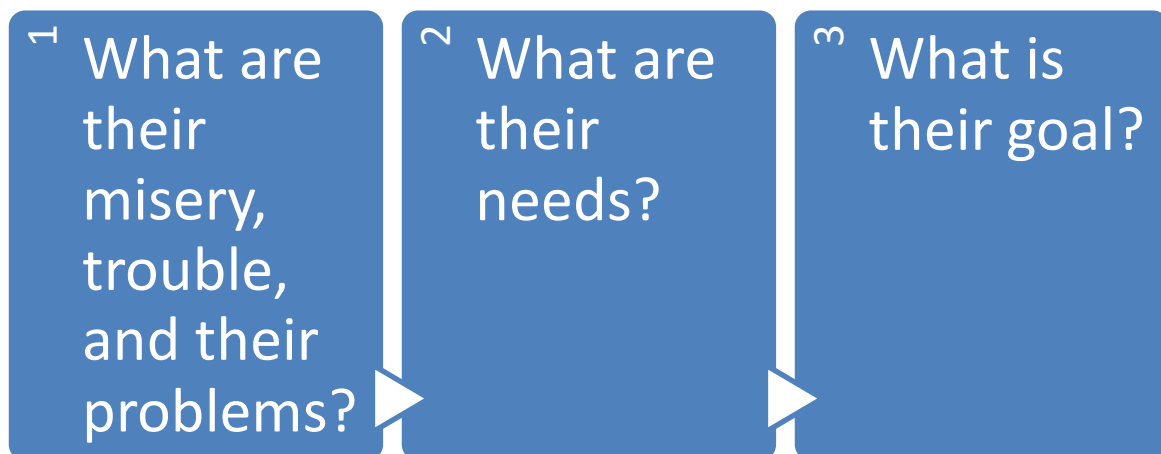

Humanitarian in Harmony Program

- 4) Organize a team meeting to review the project, structure, goals, objectives of the organization and the project for analysis and finding additional information. Both from public and private agencies. Including various researches before entry to the field to the village community. Focus on to the community and visit to explore survey and make a list of information or Service Directory.

Some basic things that the relevant team must understand before working.

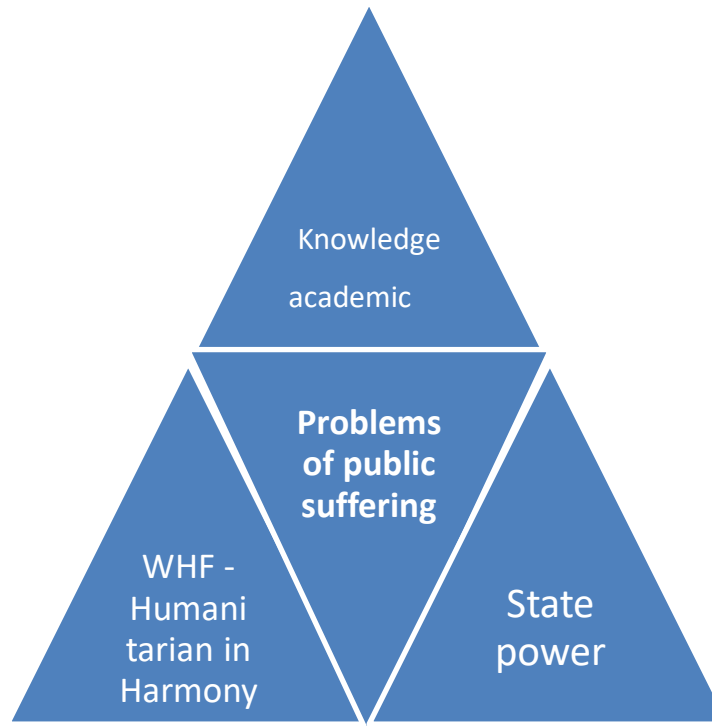

Go to listen to understand what the villagers say?

Humanitarian in Harmony Program

Important things that must be understood when working in solving community problems.

- ❖ State power is the authority, is always right, the opportunity is the dominant. Make people see that the state is following state goals. For the people to listen, follow and follow. Did not take the needs of the people as the main target.
- ❖ Academic knowledge, conclusion, principles, data from surveys, research, experiments, support self-confidence.
- ❖ People and communities are suffering, have trouble, problems, needs and their own goals. And who has the cost of understanding the problem and the cost of survival in the community already.
- ❖ WHF (Humanitarian in Harmony) is the person who manages the resources and funds that are available to solve the problem, adversity, suffering and meeting needs. And causing communities and humans achieve the goal.

Humanitarian in Harmony Program

Essentially, if the state power, academic knowledge and people go together, problems will be solved. But the fact that happened most of them are different and go in different direction. Lack of cooperation. The drive to solve problems, development to meet the needs of the people's goals, is therefore ineffective. Which affects the quality of life and happiness of the general public.

Therefore, the team HUMANITARIAN IN HARMONY have to go down to do a survey to know problems, needs and goals of the real community. Store data as SERVICE PROJECTS DIRECTORY classify by community, village, district, province and country. There is the information directory showing the sequence of problems and problems that needs to be resolved urgently.

- 5) Perform actions and follow up, as per the plan from the conclusion according to SERVICE PROJECTS DIRECTORY. By organizing work teams to solve problems with villagers and communities and periodically following up the evaluation.

A BRIEF SUMMARY OF WORK PROCEDURES

- 5.1 Went to listen to the members of the village community, households that he had a problem Have a need What is your goal?
- 5.2 Reach him by going friendly. Go be their friend.
- 5.3 Developing, solving needs and achieving goals which has the following steps.
 - A. Select and collect data of target villages and communities.
 - B. The team brings information from the community to analyze, study, plan and find the best solutions for the community.
 - C. Bring the conclusion back to the community. To hold a referendum with villagers and communities. Let the villagers understand, acknowledge, accept that it is their trouble. Show that there is a need to solve problems. Set goals, guidelines, and methods for solving problems and find a joint conclusion about what to do. Get an overview of how to solve problems, steps, and obstacles. What cooperation is required? And most importantly they are people who are work, to solve problems, they are the owner of the projects. And what they lacked and couldn't do Humanitarian in Harmony will provide help and support. When we leave the area. The villagers agree to carry out the management themselves. What they don't know, can't do. We'll help teach you how to and put the system on, etc. And the problem will be solved sustainably in

Humanitarian in Harmony Program

the community. Must place leaders in each project to work along with the representative of the project leader from our branch office. The project will be successful depending on the villagers. But the opportunity has come. There we are mentors. No force, do as you want and understanding of the community. Everyone understands exactly have an agreement. And the organization then collects the data back with the conclusion that. What projects? How? When? Who in the community is responsible? for etc.

- D. After that, our staff Humanitarian in Harmony Returning to the office bringing information to update in SERVICE DIRECTORY.
- E. Bring the information to discuss, meeting, edit, review, plan, prepare the project operation to achieve.
- F. Embark on a project with the villagers with department. Appropriate experts are required to be accurate, secure, and safe for everyone involved. When finished, deliver the work to the community. And acts as a project mentor Until the community can stand on its own.
- G. Organize staff assignments from **Humanitarian in Harmony** responsible for visiting, check that the project is going well. And be a mentor according to the appropriate period for the sustainability of community solutions.

Project Duration

Project implementation time period. It is an indication of the duration from the beginning of the project until the end of the project. How much time is spent? By showing the beginning and end of the project, specifying the date, month, year of start and end of the project.

If it's a long-term project and there are multiple phases, also showing the time period for each phase of that project. To be used as a consideration for the progress, success, failure, needs and periodic improvement of the project. As well as creating stability and sustainability for the project. For example, evaluations are monitored every 1 month, 3 months, 6 months, 1 year, 3 years, 5 years, etc.

Humanitarian in Harmony Program

Budget Finance

Budget finance support expenses for projects, activity costs, cost management, products and services. Finance costs and related expenses by WHF from the entire Humanitarian in Harmony project budget.

Project tracking and Evaluation

This section shows monitoring, control, supervision, and project evaluation. In order for the project to achieve the stated objectives with efficiency. Each project will specify the methods used to control and evaluate the project clearly Including specifying the person or department responsible for evaluating the project. Including telling the project evaluation model, indicators of project success, etc. Evaluated before proceeding, during operation after operation or to specify the time to report problems, obstacles, and recommendations.

The evaluation and indicators of success of the Humanitarian in Harmony project are as follows:

- 1) Human beings or family members. The community has a good quality of life and happiness.
- 2) Social conditions are equal. The problem of inequality is resolved. Such as equal rights, freedom, economy, society, education, public health. The rights and benefits, including things that should be given the basis for various livelihoods and communities are strong, sustainable communities.
- 3) Human beings or family members, communities can live normally in society. Have a good relationship in society. Live life with balance Have the freedom that is appropriate in Finance, Time and Health.
- 4) Have a good environment for life and living Such as not too hot, Not too cold, No natural disasters, pollution, rich sources, beautiful, livable etc.
- 5) Have utility system basic facilities that are available and suitable. Don't need to be too luxurious. Such as a working transportation system. There is sufficient drinking water to use clean water. There is electricity used with clean energy. Have effective communication systems, etc.
- 6) Have an educational system that supports Make learning equal, just ready, thorough, progressive.

Humanitarian in Harmony Program

- 7) There is a public health system that is sufficiently effective and thoroughly accessible. Regardless of the problem is resolved or when the illness was healed. Or having a modern and good advanced system for preventing / planning / corrective/ performing to prevent illness. Such as get humans understand that not eating too much sugar because it causes of ill with diabetes and know to eat Chiang Da the herb to prevent diabetes, etc. It makes humans healthy and have a long life.
- 8) There is a strong economic system. Have a really effective poverty eradication system - ERADICATE POVERTY.
 - ❖ Allowing humans to make self - SELF RELIANT LIVELIHOOD
 - ❖ There is a system that generates stable income for humans- STABILITY OF INCOMES
- 9) With safety conditions Whole body and property. Throughout the environment in which humans live and are involved. To live without having to be vigilant, paranoid or worry about prevention.
- 10) There is an intertwined anchor which strengthens the mind. Has a structural system that makes humans a virtue, with a fair human being a good person, mainly used for living. Such as religion, whether it be temples, mosques, church, treatment centers or various resources.

Humanitarian in Harmony Program

Summary

- 1) This project plan was designed to meet the goals for current Humanitarian in Harmony purposes. Is for the mankind to have a good quality of life and happiness. Bring the stability of the world, peace, reduce abundance, the distribution of wealth is more balanced. Can help solve or reduce the level of chaos, war, poverty, conflict, monopolies, bribery and many other human problems. These things automatically create a NEW WORLD ORDER SECURITY. And this is the desire and success known as HUMANITARIAN OF THE WORLD. The model can be modified to adapt to the actual working conditions, areas, environments or objectives. The changing scope of the organization.
- 2) Fundamental of the Model structure designed for humanity in the target project Have a good quality of life and live happily. In the form of a Non-Profit Organization and Social Business Enterprise. Although there is an economic process involved in the economic sector, which is a focus only for the mankind in the project to have a strong community economy and be able to live sufficiently with stable income. Be only free from debt and poverty. It is not intended to generate profit and income for the prosperity of the Humanitarian in Harmony program.
- 3) Team Work and Personnel
 - ❖ We have team and staff in both public and private sectors, independent organizations, village communities, many parts already existing work in many countries by doing International High School Summer Camp Organization around the world. Such as Thailand, Laos, Myanmar, Cambodia, Vietnam, Singapore, Australia, USA, India, New Zealand, Fiji, Island, Costa Rica etc. Especially Thailand, Laos, Myanmar, Cambodia. We have SERVICE DIRECTORY that collects problems, needs and goals of the community to be ready for use. It promptly supports the opening of a prototype office immediately. Combined with the readiness of the

Humanitarian in Harmony Program

village community, local leaders to cooperate fully with the government, private and community.

- ❖ Have a field team They speak the local language and English as a basic ready to work. And have experience and basic understanding in community development projects, have previously received training from the Department of Community and Social Development. It can already drive communities and villagers and they are ready to work immediately.
 - ❖ Having an office team working to make documents, issuing English reports, present work.
 - ❖ Have a making team for website, brochure, magazine, catalog, Advertising and related work.
 - ❖ Have a construction drawing team, engineer, sign with a construction team by themselves.
 - ❖ Have experience managing, closing accounts for both the Business & None Profit Organization for 20 years, understand the Revenue Department. Have a legal and accounting team Each country already.
 - ❖ Budgeting create, control, manage and financial report
 - ❖ Can coordinate communities, government agencies, and private organizations Both domestic and international.
 - ❖ Have a travel management team, arrange travel programs, for example ticketing, banqueting, Logistic, Escort Service VIP, Private Jet & High-End clients Both domestic and international.
 - ❖ Can set up the office of the prototype project, system training and mentor for the branch office team. According to the work structure to achieve objectives, the scope of further details.
- 4) Project office and branch structure of the model can be used in every country. Adjust the details to the administrative structure of each country. The main structure and working pattern are still the same pattern format. In conclusion, the first goal is the opening of 10,000 branches in Thailand or 10,000 branches worldwide. About the number

Humanitarian in Harmony Program

of branches, it can be expanded according to the power and potential. The main factor is the operating capital. We have the basic readiness that can be opened as a prototype branch office as follows.

5.1 Thailand

- ✓ Udon Thani Province (already have offices and teams). It can be the headquarter and cover Nong Khai, Nong Bua Lamphu, Khon Kaen and neighbors' communities for Northeastern state and The GMS (Greater Mekong Subregion) countries.

- ✓ Ratchaburi Province (already have offices and teams).

- ✓ Chiang Mai Province (already have offices and teams).

- ✓ Mae Hong Son Province (already have offices and teams).

There are community assistance centers and foundations. Help is a cultural preservation. Solve poverty of Hill Tribe people Along the border of Thailand, Myanmar, Lanna Kingdom. Which can be the center of the northern provinces such as Tak province and neighboring areas to the East Myanmar.

- ✓ Kanchaburi Province (already have offices and teams).

- ✓ Chiang Rai Province (already have offices and teams).

- ✓ Loei Province (already have teams and office).

- ✓ Lampang Province (already have teams and office).

5.2 Lao People's Democratic Republic

- ✓ Luang Prabang Province (already have offices and teams).

- ✓ Vientiane Province (already have offices and teams).

- ✓ Vang Vieng District (already have offices and teams).

- ✓ Champasak Province - Pakse (already have teams).

- ✓ Bokeo Province (already have offices and teams).

- ✓ Xayaburi Province (already have offices and teams).

Humanitarian in Harmony Program

5.3 Republic of the Union of Myanmar

- ✓ Mandalay Region (already have offices and teams).
- ✓ Bago State (already have offices and teams).
- ✓ Bagan (already have offices and teams).
- ✓ Taunggyi & Inle Lake (already have offices and teams).
- ✓ Shan State/ Keng Tung/Pang Lung (already have teams).
- ✓ Yangon Region (already have teams).
- ✓ Myawaddy (already have teams).
- ✓ Hpa-An / Kayin State (already have teams).

5.4 Kingdom of Cambodia

- ✓ Phnom Penh (already have offices and teams).
- ✓ Siem Reap (already have teams).
- ✓ Battambang (already have teams).
- ✓ Kampong Thom (already have teams).

5.5 Vietnam

- ✓ Hanoi (already have offices and teams).
- ✓ Ha Long Bay (already have teams).
- ✓ Hoi An (already have teams).

Humanitarian in Harmony Program

Remarks: This is a prerequisite that the team wants to look after and take responsibility for the center that already has a foundation. Systemize as a template. Including the provinces in the birthplace of Ratchaburi, Kanchanaburi, Phetchaburi, Prachuap Khirikhan and provinces that have worked for a long time such as Udon Thani, Loei, Chiang Mai, Mae Hong Son, Lampang, Chiang Rai, Tak and the cities listed above as well.

For example, if considered Use Udon Thani as the center Northeast region of Thailand. And connecting with countries in the Greater Mekong Sub-region that already have a team Which consists of Thailand, Laos, Myanmar, Cambodia, Vietnam and southern China Which has a combined population of approximately 300 million people, is considered a region with a large population. Covers a large area in terms of economy, the market size is large enough to consume. The majority of the population are farmers. In the traditional way, there are cost problems, low productivity, marketing problems and prices. Processing and product value addition, it is only the primary factory. There are no advanced processing factories. Such as no biotech Industry in the region. Most people have poor quality of life. Need a lot of help.
